

TDEVO S SERIES GRAB & GO EVO SELF-SERVE DISPLAY

TDEVO-090S TDEVO-120S TDEVO-150S

01. Open Self-Serve Access

Front-open design for convenient grab & go service, boosting impulse sales.

02. LED Shelf Lighting

Bright multi-shelf illumination enhances product visibility and appeal.

03. Eco-Friendly Refrigeration

Uses R290 refrigerant for energy efficiency and reduced environmental impact.

04. Reliable Temperature Control

Fan-assisted cooling ensures consistent temperatures across all shelves.

The TDEVO S Series Grab & Go Evo Self-Serve Display is purpose-built for busy retail and foodservice environments where visibility and accessibility drive sales. With an open front design and bright LED shelf lighting, products remain highly visible and easy to reach, making it ideal for beverages, sandwiches, snacks, and dairy. Its streamlined design enhances merchandising while maintaining energy efficiency.

Backed by R290 natural refrigerant and fan-assisted cooling, the TDEVO S Series ensures consistent performance with a reduced environmental footprint. Built with stainless steel for durability and equipped with simple digital temperature controls, this range combines modern presentation with reliable refrigeration for high-demand, self-serve applications.
